2018 Calhoun Bull Evaluation Program

September 18, 2018

To: Interested producers and consignors of the 49th Calhoun Bull Evaluation Program

From:  Jason Duggin, Extension Animal Scientist

RE: 56 Day Report

Average daily gain for the past 28 days was 3.53 lbs. for the 135 bulls on test. The heat has been higher the last four weeks and has hindered the gains for the short term. This group is fun to evaluate and has top notch pedigrees.

Reminder: If you have information blacked out, we need any missing registration or weaning information as soon as possible for the upcoming ultrasound. If we do not have weaning weight, ww date, adj. ww, or registration, the ultrasound information cannot be processed and will not be incorporated into your EPDs. Cattle without weaning information are not sale eligible per the bull test committee rules and regulations. Thank you!

Go to ugabeef.com/programs for online access to reports.

CBE Upcoming Dates:

Oct 16 - 84 Day Weights

Oct 18 - Ultrasound Measurements

UGA Beef Programs:

Oct 1 – Tifton HERD Delivery

Nov 1 – Calhoun HERD Nomination Deadline

***Thank you for your
interest in the Georgia
Bull Evaluation in
Calhoun!***
