2018-19 Tifton Bull Evaluation Program 28 Day Report

November 6, 2018

To: Consignors and Other Interested Parties

From: 
Jacob Segers, Ext. Animal Scientist – Beef Cattle

Enclosed is the 28 day report of the Tifton bulls. As a group, the bulls have performed well in this first period. The bulls gained an average of 4.47 pounds per day this period. Weight gain for the first 28 days ranged from 51 to 185 pounds; ADG ranged from 1.82 to 6.61 pounds; and the actual weights taken this morning ranged from 756 to 1,225 pounds.

If you did not provide all of your performance information at check-in (adjusted weaning weight, weaning date, weaning ratio, number of contemporaries, etc.), please forward those to us ASAP. This information must be on file in order for your bulls to have carcass ultrasound measurements taken in January. I know everyone is busy and the Holidays are fast approaching, but please do not delay in getting this information processed. If we are still missing data from you, you'll find that your bulls data has been blacked out. Please call our office and talk with Grace as soon as possible to find out what data we are missing from you.

The Tifton Bull Evaluation Center is open for visitors between the hours of 8 a.m. to 5 p.m., Monday through Friday. You are welcome to visit the station any time during these hours. If you wish to visit on the weekends, please call Mike Keeler at 229-831-5416. Also, for advanced viewing of reports, please visit our website, *ugabeeef.com*. We hope that you will be able to find reports and information on other Beef Team Programs even easier than before.

Upcoming dates:

- ***December 4 - 56 Day Weigh In for TBEC***
- ***December 7 - 48th Calhoun Bull Evaluation Sale***
