2018-19 Tifton Bull Evaluation Program On-Test Report

October 9, 2018

To: Consignors and Other Interested Parties

From: 
Jacob Segers, Ext. Animal Scientist – Beef Cattle

The Tifton Bull Evaluation Program began its 61st year on September 17th with the delivery of 127 bulls. The bulls have adapted well to the self-feeders and the overall health of the bulls has been very good. All bulls tested negative for the presence of Persistently Infected BVD. We are looking forward to seeing these bulls grow and develop into sound breeders for herds across the southeast. Please see details on weights and other information in the enclosed On-Test Report.

We want to extend a big thanks to our animal health sponsors for helping with the program. Clay Reynolds of Boehringer Ingelheim and Cleve Jackson with Bayer. Their support helps defray a portion of the cost of the test. Their products provide the added protection to keep the bulls as healthy as possible.

As a clerical note, we understand that it takes time to get Registration certificates back from your respective breed associations as well as adjusted weaning information so we will not withhold any data at this time. If we are missing any data from you, please send to us as soon as possible as we will withhold data from future reports.

Also, please be aware of the Tifton HERD program. We currently have 150 heifers being evaluated at Irwinville. This program complements the Bull Evaluation, generating more interest in both programs. The heifers will be evaluated over the winter with a sale scheduled for April 16, 2019.

The Tifton Bull Evaluation Center is open for visitors between the hours of 8 a.m. to 5 p.m., Monday through Friday. You are welcome to visit the station any time during these hours. If you wish to visit on the weekends, please call Mike Keeler at 229-831-5416.

Upcoming dates:

- ***November 1 - Deadline for HERD entries at Calhoun***
- ***November 6 - 28 Day Weigh In for TBEC***
- ***December 7 - 49th Calhoun Bull Evaluation Sale***
