

19th Calhoun HERD Program – Report 2

January 24, 2019

To: Consignors & Other Interested Parties

From:  Jason Duggin, Extension Beef Specialist

Workday went very well. The heifers worked great. Of the 142 heifers examined by Dr. Credille of UGA Veterinary Medicine, there were:

- 5 < 140 cm² pelvic areas
- 6 RTMS (reproductive tract maturity score) of 1
- 1 RTMS of 1 and <140 cm²
- 5 pregnant
- 1 potential freemartin/ deformed tract

Consignors, if you have heifers that were diagnosed with a 1 RTMS or <140 cm², a CIDR was inserted in case you would like them bred before returning home. If you would like to have any of these heifers removed from the program, please call, text or email me to make arrangements. The heifers will be brought back up February 6th and can be sorted off at that time for pick up if that is convenient.

The supplemental ration is also being adjusted and increased to deliver more energy in the diet and improve individual gains across the group.

If you would like to view the heifers or have questions, please feel free to call me at your convenience on my mobile number (706) 728-4354. Thank you for supporting the Calhoun HERD Program.
