22nd Calhoun HERD Program – Report 1

January 5, 2022

To: HERD Consignors and Buyers

From:  Jason Duggin, Extension Beef Specialist

There are 113 heifers at Calhoun for 2022. The transition period has gone well. During processing, lower performing heifers were temped and treated accordingly. The heifers are on 8lbs of feed and we are continuing to monitor body condition leading up to repro workday. This group worked well through the chute. We look forward to how they progress.

- January 26th is the repro evaluation workday and start of the estrus synchronization protocol.
- GAR Sure Fire is the primary AI sire for 2022 and Baldrige Marksman is the secondary.

Many thanks to Tyler Thoreson and Zoetis for their guidance and assistance with the Calhoun HERD program's health and estrus synchronization. Also, Micronutrients continues to support UGA Live Animal Programs with Intellibond (hydroxy trace minerals) in our mineral mix.

Appreciate the agents and NWGA REC crew for their efforts to process the cattle.

Please feel free to contact me at (706) 728-4354 or by email. Thank you for supporting the Calhoun HERD Program.
