

2020-21 Tifton Bull Evaluation Program 84 Day Report

January 5, 2020

From: 
Jason Duggin, Extension Beef Specialist

Grace Nyhuis, Program Coordinator III

Happy New Year! Enclosed is the 84 day report on the bulls at Tifton. We are still missing some performance data on a few bulls and/or registration certificates. When we receive your information, the 84 day performance information will be made available online. In addition, ultrasound scans will be taken on January 19th. Bulls without registration papers on file or 205 day adjusted weaning weights will be scanned as commercial and the information will not be included in their EPD profile.

We want to highlight some of the top indexing bulls here at the 84 day mark.
