24th Calhoun HERD Program – Report 1

January 3, 2024

To: HERD Consignors and Buyers

From:  Jason Duggin, Extension Beef Specialist

The first workday went very well. The heifers handled very well through the chute system and the gains look to be on target for a transition period. The heifers are on 8 lbs. of feed, and we are continuing to monitor body condition leading up to repro workday. They will be on 9 lbs. before the next weigh period. This is a high-quality group of heifers! We are looking forward to seeing how they progress.

- January 24th is the repro evaluation workday and start of the estrus synchronization protocol.
- GAR Sure Fire is the primary AI sire for 2024 and Baldrige Marksman is the secondary.

This year we are using Vigortone 3V5S Breeder Mineral. Appreciate Oglethorpe Feed and Hardware Supply as well as Johnathan Wells for helping us source this product.

Many thanks to Zoetis for their guidance and assistance with the Calhoun HERD program's health and estrus synchronization producers.

Appreciate the UGA Agents and NWGA REC crew for their efforts to process the cattle.

Please feel free to contact me at (706) 728-4354 or by email. Thank you for supporting the Calhoun HERD Program.
