The ABS Global AI Management School offers students the opportunity to learn AI techniques and herd management under skilled supervision. The curriculum includes: Anatomy and Reproduction; Reproduction and Fertility; Heat Detection; Nutrition; Principles of Genetics and Sire Selection; Herd Management Success; Semen Placement and Practice Insemination. The Synchronization of Beef Cattle and Planned Breeding of Dairy Heifers will be introduced. This is a comprehensive course with sufficient cow practice to assure competence. The course consists of 24 hours of instruction; 14 hours in the classroom and 10 hours in lab working with cattle.

**REGISTRATION FEE:** \$500. This covers the cost of supplies and practice cows used at the school. This program is limited to 15 students in order to insure as much one-to-one help during practice as possible. Therefore, registrations will be accepted on a first come, first serve basis.
