

November 19, 2024

From: Jason Duggin
Jason Duggin, Extension Beef Specialist

Hope this finds you well! Enclosed is the 28-day report for the Tifton bulls. As a group, the bulls have performed well with a 4.04 ADG. Weight gains ranged from 35 to 180 pounds and ADG ranged from 1.25 to 6.18 pounds.

Consignors:

1. We are still missing some essential data on some bulls: weaning data - (actual & adjusted, ratios, dates, and contemporaries). This information must be on file in order for your bulls to have carcass ultrasound measurements taken on January 14th.
2. Please double check and make sure all entries have a low-density genomic panel with parentage submitted or on file. Dams of all bulls need to have parentage on file with their association as well. This is necessary for sale eligibility. We will be in contact with all those that are missing data or have DNA still in question.
3. Photos will be taken January 2nd for ads and for the catalog.

Calhoun Update:

- Please go check out the catalog and videos on our website. We are anticipating an exciting sale on December 6th. If you are unable to attend in person, you can watch online through Liveauctions.tv

Please do not delay in getting this information completed. If we are still missing data from you on the next report, you'll find that your bulls' data will be blacked out. Please contact us should you have any questions. Have a Happy Thanksgiving!

Reports are available at: ugabeef.com/bulltest

Upcoming dates:

- December 6 – Calhoun Bull Evaluation Sale
- December 17 - 56 Day Weigh Day for TBEC
