25th Calhoun HERD Program – Report 1

January 23, 2025

To: HERD Consignors and Buyers

From:  Jason Duggin, Extension Beef Specialist

The first workday went very well. We were not able to capture weights due to our load bars going out. Those have been replaced, and we will be able to get weights during our next work day. *Brooks Angus does not have delivery weights as the scales were not accurate.

- January 29th is the repro evaluation workday and start of the estrus synchronization protocol.
- Baldrige Command C036 is the primary AI sire for 2025 and Mead Magnitude is the secondary.

This year we are using VitaFerm Concept Aid 5/S as the mineral supplement. Appreciate both Hardy Goodman of Biozyme (the new Georgia and Florida rep for VitaFerm and Biozyme products) as well as Nathan Serritt of Calhoun Farm Supply for their support of Calhoun HERD.

Likewise, many thanks to Zoetis for their guidance and assistance with the Calhoun HERD program's health and estrus synchronization producers.

Appreciate the UGA Agents and NWGA REC crew for their efforts to process the cattle.

Please feel free to contact me at (706) 728-4354 or by email. Thank you for supporting the Calhoun HERD Program.
