

## 26<sup>th</sup> Calhoun HERD Program – Report 2

January 29, 2026

To: HERD Consignors and Buyers

From: Jason Duggin Jason Duggin, Extension Beef Specialist

The repro exams with Dr. Brad Heins of UGA Veterinary Medicine went well. Of the 95 heifers examined, there were 2 heifers with a reproductive tract score of 1 and one heifer with a pelvic area of less than 140cm<sup>2</sup>. 1 heifer was diagnosed as a freemartin. We are excited about this group and are looking forward to how they develop. The Igenity-Beef results are also available from Neogen.

The heifers had been on a 50/50 mix of corn gluten pellets and soybean hull pellets for the first 6 weeks of the program. Over the last two weeks, the ration has included 20% corn. Prior to the extended cold snap, the heifers appeared to be doing very well and in good body condition since the previous weigh-up and respiratory boosters. It is not surprising that the average daily gains in this report are lower than we would like, given the cold temperatures. The heifers will now be on 9 lbs. of concentrate grain plus free-choice hay until the next weigh day. We are also thankful for the VitaFerm mineral with Concept Aid and Amaferm, which improve gut efficiency and hay utilization. Thanks to the agents who made the trip for the workday, and to the NWGA REC for their work in getting everything set up and ready to go!

**Appreciate our sponsors - Neogen, VitaFerm, Datamars, and Zoetis!**

### Calhoun HERD Future Dates of Interest:

Mar 2 - Time Breeding  
 Apr 1 - Blood test for AI pregnancy  
 May 22 - Ultrasound for pregnancy  
 May 27 - Calhoun HERD Sale

### UGA Beef Upcoming Events:

March 4 - Tifton Bull Test Sale, 68<sup>th</sup> Annual  
 April 21 - Tifton HERD Sale
