BULL TEST

Tifton

MARCH 4TH 2026

TIFTON, GA

12:30PM

Sale Day Info

Sale Day Contact & Team

Jason Duggin, Extension Animal Scientist | 706-728-4354
Pedro Carvalho, Extension Animal Scientist | 217-418-0202
Davy Rooks, Bull Test Manager | 912-309-9183
Grace Nyhuis, Program Coordinator III | 229-386-3683

Bull Test Advisory Committee

Johnathan Wells - Rayle, GA | 770-880-8678
Rodney Hilley - Molena, GA | 678-372-9111
Melvin Porter - Jefferson, GA | 706-654-8283
Bob Neligan - Eatonton, GA | 706-318-3183
Barry Cronin - Canon, GA | 706-476-7741
John Cook - Buckhead, GA | 706-818-1348
Rick Wood - Clarkesville, GA | 706-499-2325

Auctioneer

Carroll Cannon (GAL #249) | Cannon Marketing Company 229-881-0721

Sale Location

2347 GA HWY 32 W. | Chula, GA 31733

From North on I-75, Take exit 7B (GA HWY 32) east 12.5 miles. Bull Test Center will be located on your left. From South on I-75, Take exit 6B (Brighton Rd.) east 1 mile. Left on GA 125, go 11.5 miles. Right on GA HWY 32. Go 1/2 mile, center will be located on left.

Sale Order

Sale begins at 12:30 pm. The order of the sale is determined by the index. The highest indexing bull sells first, and is followed in descending order, regardless of breed. Index = Average Daily Gain (ADG) + Weight per Day of Age (WDA)

Online Bidding

Bid online at liveauctions.tv and for online support contact Shelly Burden at 903-386-7197 

Viewing

Bulls will not be run through the ring on sale day, but will be penned at the sale site for close inspection. A video of each bull will run during the auction. The videos will be available prior to the sale via a link on our website. All persons who attend this sale do so at their own risk. The owners and sponsors assume no liability, legal or otherwise, for accidents of any nature.

Announcements

Announcements made from the auction box on sale day take precedence over the printed material in this catalog and all other announcements.

Sale Terms

Each bull will sell to the highest bidder, with the auctioneer settling any disputes regarding bids. Terms of the sale are cash or check. Each bull becomes the risk of the purchaser immediately upon being sold in the auction ring; however, every reasonable precaution will be taken by the staff until all cattle are loaded. Sale staff will continue to care for bulls for a period of 24 hours following the sale. Buyers will receive a properly transferred certificate of registry at the consignor's expense, and buyers who have not received registration papers within 90 days of the sale should contact sale management. Health certificates will be available for each bull sold to an out-of-state buyer. Buyers from States with special entry requirements should contact 229-386-3683 prior to purchase. All bulls will sell with a minimum (floor) price of \$2,500.

Eligibility for Sale

All bulls have genomic enhanced EPDs and are have a parent's qualified status. Unruly or unsound bulls will not be offered for sale. Each bull will have a minimum yearling scrotal circumference of 30 cm and must pass a breeding soundness examination prior to sale. All bulls are free of the following known genetic defects: AM, NH, CA, DD, OS, and Dwarfism. The potential or carrier status of all bulls for newly identified genetic defects not listed above is fully disclosed in this sale catalog.

Sale Book Design

Square One Agri Marketing...706-599-8194

The Tifton Bull Evaluation Program is an educational program for southeastern cattlemen to better understand their herd's growth performance and genetic merit during an 84-day evaluation. The University of Georgia's College of Agricultural and Environmental Sciences Animal & Dairy Science Department manage and sponsor the program along with the Georgia Cattlemen's Association.

Bull Development

Test Data Collection

Bulls were received on October 2nd, 2025. After a 21-day diet transition period, weights were taken at 0, 28, 56, and 84 days. Hip heights were recorded at 0 and 84 days.

Health and Fertility

Health is excellent. Bulls are thoroughly examined for physical soundness, and have passed a breeding soundness exam by a licensed veterinarian.

Ration and Care

Continue developing yearling bulls with quality forages, hay, and supplemental feed. This will help ensure proper growth and performance. Visit ugabeef.com/bulltest for the feed ration formulation used in this program.

Performance Records

Each sale-eligible bull has passed strict performance standards and has a complete record presented in the summary below the two-generation pedigree.

Ultrasound Measurements

Bulls were scanned in accordance with ILIA CUIP lab procedures and interpretations. REA, IMF, and Fat adjustments were made to 365 days of age.

Genomic Enhanced EPDs

All bulls selling have had DNA submitted to their respective breed association for genomic evaluation and parentage verification. This increases the EPD accuracy to provide more certainty in decision making.

With cattle as valuable as they are in this historic era, bull power is more important than ever as we look toward future calf crops and the creation of exceptionally valuable replacements. Quality cattle make the difference! Quality is measured in performance and pounds on weaning day, structural correctness, foot quality, docility, carcass merit traits, environmental adaptability, and maternal traits. In Tifton's 68th year, you will find the highest quality bulls ever offered, along with the best tools and resources to make your selection decisions.

This year has been one for the books. These bulls will be stout and impressive to evaluate. Making your decisions on bull purchases is a critically important part of your herd's future. We want to make that as effortless as possible, which is why we go to great lengths to ensure you have current EPD and ultrasound data, along with videos of each bull, and online bidding for those who can't join us live on sale day.

Thanks go to Davy Rooks and Grace Nyhuis for their commitment to the Bull Test. They are what truly make the programs so great to work with, whether you are a consignor, buyer, or one of the UGA team. Lastly, Dr. Lawton Stewart went above and beyond once again this year in supporting the Tifton Bull Test as a nutritionist and advisor. Dr. Stewart has now moved to a new position as Assistant Dean for Extension in the College of Agriculture and Environmental Sciences, but we will no doubt continue to see him around. Thankfully, Dr. Pedro Carvalho has officially joined the UGA Beef Team and is stationed at the Tifton Campus. He will provide faculty leadership to both the Tifton Bull Test and the Tifton HERD programs. This is awesome news, as Dr. Carvalho is an experienced beef cattle nutritionist who comes to us from Colorado State University with a strong background in nutrition. Thankful that he and his wife have made the transition to Tifton! Moving forward, Dr. Carvalho and Grace will be your main contacts for Tifton Bull Evaluation and Tifton HERD.

The UGA Beef Team looks forward to seeing you all on sale day. We want every beef cattle producer in Georgia and beyond to succeed and accomplish their goals. Please let us know if we can be of any help.

Sincerely,

Jason Duggin
